## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-21, 48-61, 68 drawn to a pharmaceutical formulation and methods thereof, classified in class 424, subclass 464.
  - II. Claims 22, 46-47, drawn to an effervescent, classified in class 424, subclass 466.
  - III. Claims 23-45, 66-67, drawn to biphasic tablet, classified in class 424, subclass 472.
  - IV. Claims 62-65, drawn to compacted granules, classified in class 424, subclass 489.

2. The inventions are distinct, each from the other because of the following reasons:

The Group I method does not require that the effervescent tablet of Group II, the biphasic tablet of Group III nor the compacted granule of Group IV, be used in the formulation of the method steps. Group I merely requires a modified release tablet and methods thereof.

The Group II effervescent tables are distinct from the biphasic tablets of Group III and the compacted granules of Group IV.

The Group III biphasic tablets are patentably distant from the compacted granules of Group IV.

Each of the above Groups is directed to subject matter that is capable of supporting a separate and distinct patent within the art. Each Group provides a different search strategy as well as a different search.

Art Unit: 1615

3. Because these inventions are distinct for reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
